ChargeSwitch® Direct 96 gDNA Kits

High-performance gDNA purification without PCR inhibition

Thank you for your interest in the ChargeSwitch® Direct 96 gDNA Kit. FREE samples are available for those who qualify.†

Don't take our word for it, find out how you can achieve better results risk-free! Simply fill out the form below to receive your free sample and a Technical Specialist will contact you to discuss your request. Hurry! There are a limited number of samples available, secure yours today.

More Information

- Sample Request

(fields marked with an * are required)

1. From what supplier have you most often purchased kits for this nucleic acid purification application in the past?

Qiagen Ambion
 Promega Sigma
 Agencourt Other, please specify: _____

2. Which kit are you currently using?

Kit name: _____ Reaction size of kit: _____

3. How many individual DNA samples do you typically process each week using the kit mentioned above?

1-25
 26-100
 >100

4. What is the primary downstream application for the sample prep?

Sequencing Amplification (PCR, WGA)
 Genotyping Real-time detection (qPCR)
 Post-transfection screening Other, please specify: _____

5. Are you willing to test the sample kit and supply feedback to Invitrogen within 2 weeks after receiving the kit?

Yes No

6. Please describe how your current nucleic acid purification method could be improved*
